With Rhythm and Reverence, New Orleans Marks 10 Years Since Katrina

(Reuters) New Orleans, a town renowned for staging big celebrations, faces a tricky challenge on Saturday, 10 years to the day from when Hurricane Katrina slammed into southeast Louisiana and triggered flooding that would leave 80 percent of the city under water. The city wants to recognize the progress it has made in recovering from the most costly storm in U.S. history. Thousands of people are expected to turn out as the city's trademark "second line" parades snake through the streets and New Orleans puts its famous musical traditions on display. But Saturday is also a time to remember more than 1,500 New Orleanians who were killed by Katrina and its aftermath, and the 130,000 residents who were displaced. A celebration would not be the right gesture for those who will never be made whole," said Kristian Sonnier, an official at the New Orleans Convention and Visitors Bureau. "This is more taking stock and recognizing what we have accomplished and that we have a lot more work to do," he said. Saturday will cap a week of self-examination that has included panel discussions by urban planners, elected officials, recovery experts, architects and neighborhood leaders. The day begins early with a wreath-laying ceremony in one of the city's historic above-ground cemeteries, the site of the Hurricane Katrina Memorial. The remains of 83 "forgotten" victims have rested there since 2008, their bodies never claimed by relatives. Mayor Mitch Landrieu will pay tribute to them during a brief service. Other places that were hard-hit will host memorials as well. At Shell Beach, in lower St. Bernard Parish just east of New Orleans, public officials and residents will gather along a waterway that burst through a levee in 2005 and killed 127 people. The ceremony will feature a reading of the names of victims, now etched into a monument there. Tributes are slated in the city's Lower Ninth Ward, where surging waters broke a floodwall on the city's Industrial Canal and devastated the entire neighborhood. Similarly, Lakeview, Broadmoor, Mid-City and a host of other areas are looking back on 2005 with mixed emotions.

International News – Significant Events

Bangkok Bomb: Thai Police Arrest Man Over Erawan Blast

(BBC) Police in Bangkok say they have arrested a man in connection with a bomb that killed 20 people in the Thai capital nearly two weeks ago. The man, confirmed as a foreigner, was arrested in Nong Jok on the outskirts of Bangkok, a spokesman said. Bomb-making materials were found at the apartment along with 10 passports, said spokesman Prawut Thavornsiri. The bomb tore through the crowded Erawan Shrine on 17 August injuring more than 100, mostly tourists. The BBC's Jonathan Head in Bangkok says the suspect is Turkish national. Deputy national police chief General Chaktip Chaijinda confirmed in a live TV broadcast that police had "detained one person". "We have found components of bomb-making materials in his apartment and I am confident that he is likely involved with the bomb attack," he said. Police had been searching for a prime suspect who was seen on CCTV footage leaving a backpack at the shrine shortly before the blast, which injured more than 100, mostly tourists. A photofit image was released showing the suspect with dark hair and glasses.

SITUATION SUMMARY

Outbreak of Legionnaires Disease at San Quentin: San Rafael, Marin County

On August 27, 2015 at 1748 hours, San Quentin's Senior Emergency Management Coordinator (Sr. EMC) notified the Warning Center that an emergency procurement of drinking water will be required due to one confirmed case of Legionnaires and other inmates showing signs of possible infection.

- Marin County's Public Health Officer met with the San Quentin officials and a "do not drink or bathe" order was enforced at the facility; however, alternate water sources were procured, i.e. bottled water.
- The Cal OES Coastal Region Duty Officer (CDO) furnished the current bulk water hauler list to San Quentin's Sr. EMC.
- At 1500 on 8/28, the Coastal Region had a conference call with CDCR, San Quentin, Cal OES Coastal and Logistics staff, Region II RDMHC, and DGS.
- San Quentin had one prisoner test positive for Legionnaire's disease, with 25 more showing similar flu/pneumonia-like systems.
- San Quentin is currently investigating the possible source of the contamination.
- Water is shut off to the prison and a do not drink/bathe order, has been issued
- Bottled water and sack meals will be provided.
 - At this time the major issues are:
 - Shower units - DGS will be working with the prison to support this.
 - Non-alcoholic hand sanitizer for use in cells - DGS will work through their contractors.
 - Low temp freezer/cold storage units - there was a concern that the food packaging would be contaminated with water particles, but San Quentin reassured all on the call that this was not the case. DGS will be working on this issue.
- There are no plans to evacuate prisoners or use laundry trailers.
- The LDO was briefed after the call.

SITUATION SUMMARY

Warnings:

Hurricane Trop.Storm

SITUATION SUMMARY

Hurricane Ignacio Twelve - E

Location: About 660 mi, East Southeast of Hilo, Hawaii

About 870 mi East Southeast of Honolulu, Hawaii

Maximum sustained winds: 90 mph

Discussion: IGNACIO is forecast to track northwest toward a break in a mid-level ridge that is centered to the distant northeast. The track guidance is once again tightly clustered and offers little in the way of significant change with the official track forecast still riding the left hand side of the guidance envelope although the Day 5 Global Forecast System (GFS) forecast position was right on top of the previous official forecast. Therefore the updated forecast represents very little change.

- Watches/Warnings: No coastal watches or warnings in effect.
- Federal Response: The FEMA Region IX Regional Watch Center will activate to Enhanced Watch at 0800 hours on 8/28/15 and has requested Hurricane Liaison Team support for 8/29/15. The Regional Response Coordination Center will activate to Level II with select Emergency Support Functions, DoD and USCG on 8/31/15. Incident Management Assistance Team 3 will deploy to Honolulu, HI on 8/31/15. The Hawaii Emergency Operations Center is not activated.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

An unseasonably strong front will rapidly move across northwest California tonight accompanied by rain and high elevation gusty winds through early Saturday morning.

Medford Weather:

Gusty southwest winds and dry conditions will continue over the Shasta Valley and east side into this evening, but conditions are expected to stay below warning criteria due to slightly increased humidities. Humidities are already much higher west of the Cascades and will continue to increase as a frontal system approaches.

Reno Weather:

Low pressure will move into the west coast this weekend. Winds are increasing this morning becoming windy through late this morning with breezy conditions continuing into the afternoon. A few showers will be possible mainly north of interstate 80 today. More typical winds and seasonably cooler temperatures are expected from Sunday into early next week.

San Francisco Weather:

A Pacific weather system will bring a chance of light into the morning hours today. Much cooler weather is forecast for this weekend. Dry and seasonably cool weather is expected next week.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

Pacific system moving in Saturday is expected to bring chance of precipitation north of I-80. Cooler and drier conditions with below normal temperatures can be expected next week.

Hanford Weather:

Temperatures will cool to slightly below average this weekend and locally breezy conditions are expected as a low pressure system impacts. Temperatures should remain near average during next week as onshore flow continues. No precipitation is expected through the period.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

High pressure over the Four Corners will result in another rather hot day in most areas today. An upper trough moving into the west coast will bring significant cooling Sunday through Monday with an increase in night through morning clouds and fog in coastal areas. A couple of troughs moving into the Pacific Northwest will keep temperatures below normal in most areas Tuesday through Friday

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

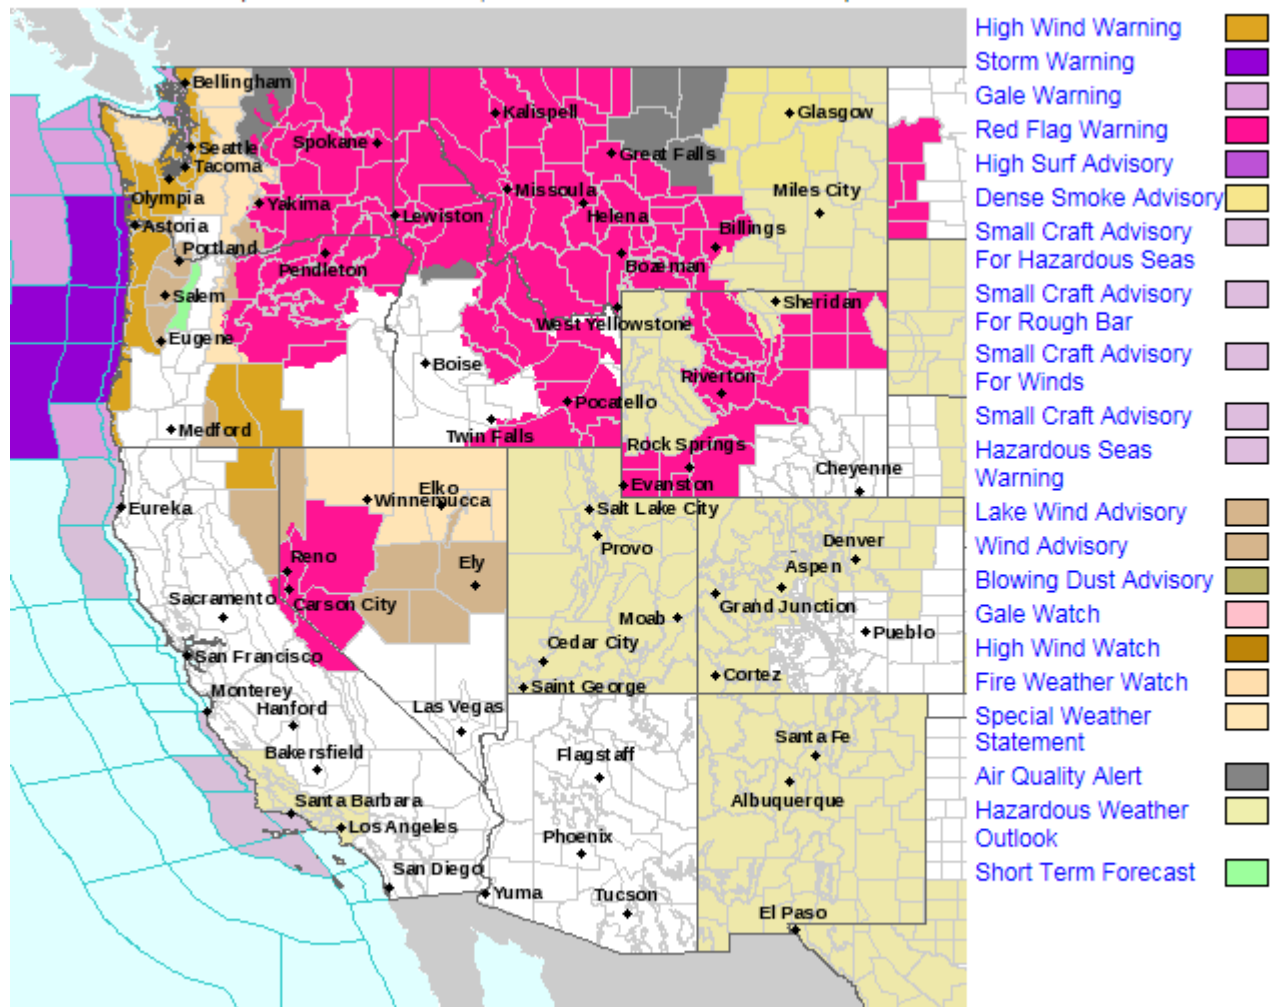

High pressure aloft will continue the hot weather for inland areas today. For Sunday through next week, a trough of low pressure developing near the west coast will bring drier southwest flow aloft with stronger onshore lower level flow. This will bring an inland cooling trend and a deeper marine layer along with locally gusty west winds in the mountains and deserts each late afternoon through late evening.

Southeast California Weather:

Strong high pressure aloft will keep high temperatures well above seasonal normals today with hotter lower deserts reaching or exceeding 110. There will be sufficient moisture east of the lower Colorado River to support isolated to scattered afternoon and evening thunderstorms through Sunday.

SITUATION SUMMARY

FIRES, SOUTHERN OPERATIONS AREA

Rough, Vegetation Fire, Fresno County

Location: 5 miles north of Hume Lake and 2.5 miles southwest of Spanish Mountain

Jurisdiction: FRA

Start Time: 07/31/15 at 1933 hours

Per Cal OES, CAL FIRE, and/or ICS-209 as of [08/29/15 at 0559 hours](#):

- 61,316 Acres, 25% Contained

Evacuations/Shelters:

- Mandatory Evacuation Areas:
 - The Hume Lake Christian Conference was evacuated 08/18/15. Per the Cal OES Law Duty Officer (LDO) evacuation was accomplished in less than 2 ½ hours due in significant part to prior planning between Fresno Sheriff and the Camp Staff. The group of 750 to 1000 people were evacuated to a sister Church in Fresno for sheltering.
 - There are 250 mandatory evacuations in the National Park Campgrounds in the immediate area of Hume Lake Christian Camp.
 - There has been an evacuation of 32 private residences, believed to be all vacation homes in the Big Meadow and Heart Meadow Neighborhood.
 - Approximately 1,500 campers in several Kings Canyon National Park Campgrounds located along 10 Mile Rd have been placed under mandatory evacuation.
- EOC Activations: Fresno County EOC is activated at Level 2 from 0730-1800.
- The California Highway Patrol has also moved the road closure, which had been located at the intersection of Highway 180 and Hume Lake Road. The new road closure now sits further south on Highway 180 at Grant Grove Tree (approximately 2 miles north of the Hwy. 180 and Hwy. 198 interchange). The roadway will remain closed until authorities determine it is safe to reopen. The Sheriff's Office wants to make the public aware that no one will be allowed to enter the Hume Lake area; people will only be allowed to exit.
- Per CUEA, PG&E critical facilities and distribution assets are no longer in a high risk category for threats to power serving Central California. CAISO has reviewed PG&E facility locations that may be impacted by the fire and none of the locations would compromise the grid in any capacity. There would be no brownouts if these sites were impacted.
- Missions:
 - 2015-IREOC-15460 Two air monitors to Mariposa OA
 - 2015-IREOC-15468 One air monitor to Madera OA
